Introducing SxS PRO™ memory card designed for

high-speed professional digital HD video workflow.

With the advent of Sony's SxS PRO™ memory card, professional digital videographers and video editors can now enjoy a high-speed digital workflow. Designed for next generation video cameras such as the XDCAM EX™ series professional camcorders, and non-linear video editing systems, the SxS PRO™ memory card is flash memory based for near instantaneous read and write performance. For professionals with a vision of a high-end digital video workflow and fast turnaround speeds, Sony's SxS PRO™ memory card is the answer.

High-speed data transfer of large video files.

SxS PRO™ memory cards are the first native PCI Express™ solid-state storage media. In addition, Sony has optimised the technology protocol for controlling communication between hardware and SxS PRO™ memory cards to enable high-speed transfer of large files, such as high-definition video, to PCs for non-linear video-editing. Transfer speed of SxS PRO™ memory cards has the capability to reach 800Mbps*, making high-quality digital video transfer truly fast.

Recording Time[^]

Setting	Audio Format	Rec Time on 8GB	Rec Time on 16GB	Rec Time on 32GB [#]
HQ mode	LPCM 16-bit, 48kHz, 2ch	Approx. 25min	Approx. 50min	Approx. 100min
SP mode	LPCM 16-bit, 48kHz, 2ch	Approx. 35min	Approx. 70min	Approx. 140min

Compact Size

The SxS PRO™ memory card specification uses ExpressCard™/34 modules (width: 34mm, height: 5mm, depth: 75mm), half the size of PC Cards. This enables the design of professional camcorders that are smaller and lighter, while still offering high storage capacities.

Product Specifications

	8GB	16GB	32GB [*]
Model name	SBP-8	SBP-16	SBP-32
Weight	Approx. 27g (w/o hard case) Approx. 48g (w hard case)	Approx. 27g (w/o hard case) Approx. 48g (w hard case)	Approx. 27g (w/o hard case) Approx. 48g (w hard case)
Dimension	Approx. 34 x 5 x 75mm (Hard case approx. 48 x 13 x 90mm)	Approx. 34 x 5 x 75mm (Hard case approx. 48 x 13 x 90mm)	Approx. 34 x 5 x 75mm (Hard case approx. 48 x 13 x 90mm)
Country of origin	Japan	Japan	Japan

* Read speed tested with benchmark software. Actual transfer speed varies upon the measurement conditions.
