WARNING

To prevent fire or shock hazard, do not expose the unit to rain or moisture.

To avoid electrical shock, do not open the cabinet. Refer servicing to qualified personnel only.

Before You Begin

Thank you for choosing the Sony world band receiver! The world band receiver will give you many hours of reliable service and listening pleasure.

Please read these instructions thoroughly before operating the world band receiver, and retain them in a handy place for future reference.

Features

- FM stereo/SW/MW/LW portable receiver with worldwide band coverage
- PLL (Phase Locked Loop) synthesizer system
- Presetting of up to 10 stations on each memory preset page for quick tuning (50 stations in total)
- Memory scan function automatic memorized on a memory preset page
- Steady timer function to receive your favorite broadcast at the desired time
- Scan tuning to automatically scan the stations
- Sleep timer to turn off the radio automatically after the sleep timer setting (60, 45 or 15 minutes) is reached
- Clock function
- FM stereo reception through stereo headphones (not supplied)

Choosing Power Source

Installing Batteries (See fig. A)

- Open the lid of the battery compartment at the rear of the unit.
- Install three R6 (size AA) batteries with the + and - poles facing the correct way and then close the lid.

"000" flashes on the display after you first install the batteries. To stop flashing, set the clock. (See "Setting the Clock.")

Battery Life (approximate hours)	Sony R6 (size AA)	Sony LR6 alkaline (size AA)
FM reception	17	46
SW reception	12	33
LW/MW reception	12	33

Knowing when to replace the batteries

When the batteries become weak, "000" flashes on the display. When the batteries are completely exhausted, "000" lights on the display and the power is turned off.

When "000" lights, replace all the batteries with new ones.

When you replace the batteries

Replace the batteries within 60 seconds while the power is turned off. If you do not perform any operation for 60 seconds, the clock and standby settings will be deleted. However, the stations you preset will remain.

After the batteries are replaced, press ON/OFF to turn the indication off.

Using Other Power Sources

The internal batteries are automatically disconnected when the AC power adaptor is connected to the DC IN 4.5 V jack for external power source.

House current

Connect the Sony AC power adaptor (not supplied) to the DC IN 4.5 V jack firmly, and plug it into a wall outlet.

Notes on external power sources

- When operating the unit with an external power source, do not remove the batteries. These batteries serve to backup settings stored to memory. Since batteries discharge in this case as well, we recommend changing them about once a year.
- Before connecting and disconnecting the external power source plug, be sure to turn off the radio. Otherwise, "000" may be displayed. When this occurs, turn on the radio so that "000" disappears.
- When operating the unit with the internal batteries, remove the AC power adaptor from the wall outlet and the DC IN 4.5 V jack. Make sure that the plug of the external power source is disconnected before operating the unit.
- Use the recommended Sony AC power adaptor only. The polarity of the plugs of other manufacturers may be different. Failure to use the recommended AC power adaptor may cause the unit to malfunction.

Insert the "0" side of the battery first. Спереди вставьте сторону батарейки 0.

Az elem 0 oldalát helyezze be először.

* For details on the optional AC power adaptor, see "Specifications."

Russian

Setting the Clock

Set the time when the radio is turned off. The clock setting is erased. At this time "0000" flashes.

The clock operates in the 24-hour system. "0000" = midnight "1200" = noon

Setting the clock

- Press and hold ENTER/CLOCK until you hear a beep. The hour indication starts flashing.

- Press ← or → under TUNE/SCAN/TIME SET to display the correct hour.

The hour increases by pressing →, and decreases by pressing ←. To continuously increase or decrease the hour, keep → or ← hold down. You hear a double-beep when "0" is displayed.

- Press and hold ENTER/CLOCK again until you hear a beep.

- Press ← or → to display the correct minute.

To continuously increase or decrease the minute, keep → or ← hold down. You hear a double-beep when "0" is displayed.

- Press and hold ENTER/CLOCK until you hear a double-beep.

- Press and hold ENTER/CLOCK until you hear a double-beep.

Note

If you leave the radio for one minute with no operation, the clock setting will be stored and the unit will return to the previous mode. In this case, repeat the procedure from step 1 to complete the clock setting.

To cancel the clock setting

Press ON/OFF on the radio, and then turn it off. The unit will return to the previous mode.

Troubleshooting

Should any problem persist after you have made the following checks, consult your nearest Sony dealer.

There is no sound output.

• VOL (volume) is turned down completely.

• The stereo headphones are plugged in.

• The batteries are inserted with the + and - poles facing the wrong way.

• Radio disconnected, even if you press POWER.

• The batteries are inserted with the + and - poles facing the wrong way.

• The batteries are exhausted. "000" flashes on lights).

• The AC power adaptor is disconnected.
